## DIRECTOR'S NOTES

Betty Huff Theatre Company's Anne of Green Gables is an adaptation of the beloved classic by L.M. Montgomery. Set in the picturesque village of Avonlea, our production follows the adventures and growing pains of the spirited Anne Shirley, an imaginative orphan who transforms the lives of everyone around her, especially the Cuthberts who reluctantly take her in. Through Anne's story, we explore themes of the power of imagination to overcome life's challenges, belonging and friendship.

At Betty Huff Theatre Company, one of our primary goals is to create a space where students can find community—a place where they can learn, have fun, and express themselves. Much like Anne, who learns to accept herself and find her place in the world. We hope our cast members have discovered the

value of teamwork, perseverance, and mutual support in bringing this story to life. The hard work, collaboration, and trust we've built together throughout the rehearsal process echo's the lessons Anne herself learns as she grows.

Being a non-musical production, our students have learned that memorizing lines is no small feat compared to learning songs. Despite the challenges, our dedicated cast has poured countless hours into perfecting their performances to share this timeless, heartwarming story with you.

While this show may be a bit rough around the edges—just like Anne herself—it is presented to you with the love, energy, and dedication that our cast has put into it. We hope you enjoy the show!
